Introduction

Not finding a catalogue for Norwegian perfins, we started creating one. This is a first attempt to compile such catalogue.

The perfins in Norwegian stamps can be classified into:

- (1) service perforations from state institutions, 'statlig institusjon';
- (2) private (business) perforations, 'private gjennomhullede frimerker';
- (3) non regular perfins and other perforation.

About 25 perfins from state institutions (service marks) were used by ministries and executive agencies. About 100 private perfins were used by companies and non-governmental organisations. Besides these perforations, stamps of Norway carry several perforations, applied from a different background. These are placed in a separate section in this catalogue.

Numbering revenue stamps ('stempelmærke'): "The revenue stamps of Norway" on scribt.com. Revenue stamps all have a denomination in black.

This catalogue contains list of Norwegian stamps, in which the Norwegian perfins (and some perfins from other countries) were found. As every catalogus of perfins, these listings surely are not complete; in future probably many new items will be found.

Please send additions, new discoveries, corrections and improvements (preferably by email). And please include a scan or good photo from your new discovery. Thanks.

If you are interested in receiving this catalogue, please contact one of us.

Inleiding

Omdat er geen catalogus van Noorse perfins was te vinden, hebben we er zelf een samengesteld. Voor u ligt de eerste versie.

De Noorse perfins kunnen worden ingedeeld in:

- (1) perforaties van overheidsinstanties, 'statlig institusjon';
- (2) perforaties van particuliere bedrijven, 'private gjennomhullede frimerker';
- (3) ongebruikelijke en andere perforaties.

Er zijn ca. 25 perforaties van overheidsinstanties, zoals ministeries en uitvoerende diensten. Ca. 100 perfins zijn gebruikt door bedrijven en andere niet-overheidsinstanties. Daarnaast zijn nog perforaties gevonden in Noorse postzegels met een andere achtergrond. Deze perforaties zijn in een aparte rubriek achter in deze catalogus opgenomen.

De revenue stamps (of belastingszegels) zijn genummerd volgens "The revenue stamps of Norway" op scribt.com. Deze zegels hebben allemaal een waarde-aanduiding in zwart.

Deze catalogus bevat een overzicht van Noorse perfins (en enkele buitenlandse perfins) die zijn aangetroffen in Noorse postzegels. Deze lijsten zijn zeer beslist incompleet en ongetwijfeld zullen nog veel aanvullingen worden gevonden. Stuur nieuwe vondsten s.v.p. toe; ze worden in volgende edities van de catalogus toegevoegd. Stuur zo mogelijk een goede scan of foto van uw vondst mee. Bij voorbaat dank.

Als u deze catalogus wenst te ontvangen, neem dan contact op met een van ons.

Om de catalogus voor een zo breed mogelijk verzamelpubliek geschikt te maken is de catalogus voornamelijk in het Engels.

Notes	perfin also used on fiscal stamps from Great Britain, Cape of Good Hope and Finland					

Michel	NKP	Face value	Colour	Description
		2 Kr	orange-red on greenish grey	ST-4, revenue stamp ('STEMPELMÆRKE')

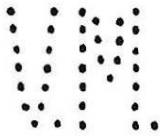

This perfin has only been observed on a single Norwegian documentary stamp (ST-4).

The perfin has also been recorded on fiscal stamps from Great Britain, Cape of Good Hope and Finland.

The main use for this particular perfin was a form of receiving cancellation by the British company. Stamps from other countries that have been observed on documents show that this perfin was applied after the stamp was on the document.

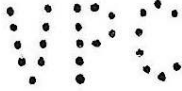

Based on the main method of use for this perfin, it is not likely that many specimens will ever be found in the future. The few that are possible will likely come from holdings in the British Isles.
